# Company Overview

Malsi General Trading L.L.C. is a premier provider of specialized construction and interior solutions across the UAE. We bridge the gap between architectural vision and functional safety through technical material sourcing and precision installation.

## **Our Mission**

To supply and install high-performance building components that exceed international safety standards while enhancing the aesthetic integrity of every commercial and residential project.

## **Our Vision**

To be the most trusted partner for architects and contractors in the Emirates, recognized for our excellence in specialized finishing systems and safety-first engineering.

# Our Core Values

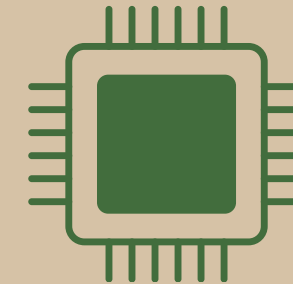

## Safety First

Ensuring all materials meet strict UAE Civil Defense fire and impact standards.

## Quality

Sourcing premium-grade raw materials for long-term durability and performance.

## Innovation

Applying the latest installation techniques for seamless finishing and precision.

# Specialized Wall Padding

## Protective Safety Solutions

Our installation team focuses on precision and compliance with international safety standards.

- **Superior Shock Absorption:** We use high-density EVA and PU foam (25mm–50mm thickness) to significantly reduce injury risks in high-activity areas.
- **Fire-Retardant & Hygienic:** Our padding features antimicrobial, easy-clean vinyl covers that meet strict UAE Civil Defense fire safety benchmarks.
- **Custom Architectural Fit:** Available in a wide spectrum of colors and textures, our panels are custom-cut on-site to fit around sockets, pillars, and corners perfectly.
- **Heavy-Duty Durability:** Designed for high-traffic UAE environments, our padding is UV-stable, moisture-resistant, and tear-proof.
- **Installation Methods Available:** We offer different installation methods, including Clip System, Permanent Fixing System, and Velcro System.

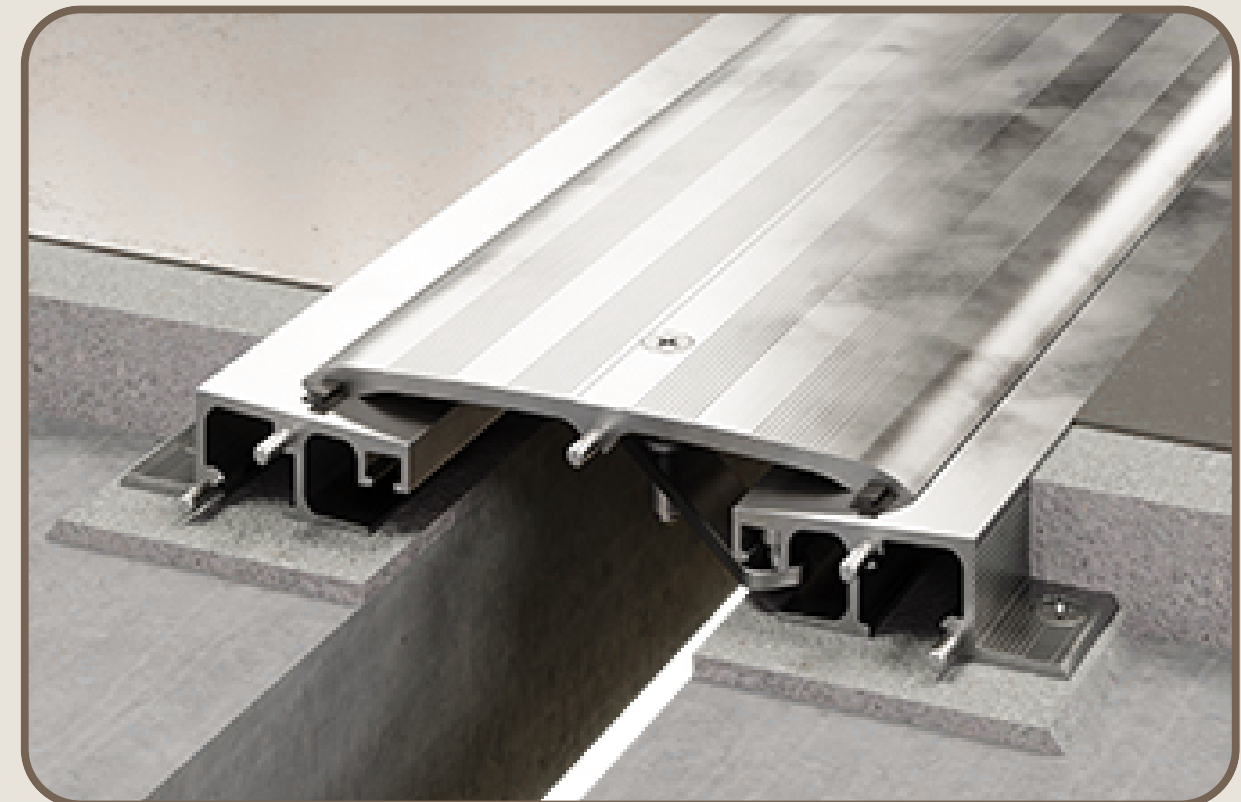

# Expansion Joint Systems

## Why Choose us for Expansion Joint Systems?

Our systems handle the extreme temperature changes and dynamic loads unique to the UAE climate.

- **Superior Movement Accommodation:** Specifically engineered to handle thermal expansion, seismic shifts, and dynamic loads.
- **Corrosion-Resistant Materials:** We utilize high-grade stainless steel, aluminum, and heavy-duty elastomers (EPDM/Neoprene).
- **Civil Defense & Fire-Rated:** Our joints include fire-barrier options that comply with strict UAE Fire Safety Regulations.
- **Aesthetic Integration:** Sleek, low-profile designs that blend seamlessly with high-end flooring, walls, and ceilings.

# Acoustic Excellence

## Professional Acoustic Solutions

High-quality acoustics transform a room from a noisy environment into a productive space. We offer tailored systems that meet international safety and performance standards.

- **High NRC Ratings:** Our panels offer superior sound absorption for offices, auditoriums, and cinema halls.
- **Civil Defense Approved:** We provide fire-retardant materials that comply with strict UAE Building Codes.
- **Custom Aesthetic Finishes:** Choose from various fabrics, colors, and shapes to match your interior design.
- **Certified Installation:** Our in-house technicians ensure a flawless fit for long-term structural durability.

# Acoustic Ceiling Baffle

Malsi General Trading L.L.C. supplies and installs high-performance suspended acoustic ceiling baffles designed to eliminate echo, minimize reverberation, and optimize sound clarity in open-plenum architectural spaces. By exposing both faces of the panels, this linear suspended design maximizes surface area contact with sound waves, drastically improving speech comprehension and acoustic comfort without closing off structural concrete ceilings.

## Key Applications

- **Educational Facilities:** Classrooms, lecture halls, and school auditoriums.
- **Commercial Spaces:** Open-plan corporate offices, meeting rooms, and high-ceiling lobbies.
- **Large Public Venues:** Multi-purpose sports halls, airport terminals, and hospitality spaces.

## Technical Specifications & Structural Features

- **Material Core Composition:** Available in high-density, eco-friendly 100% Polyester Fiber (PET) or premium fabric-wrapped acoustic resin core options.
- **Acoustic Performance:** Delivers an exceptional Noise Reduction Coefficient rating (NRC up to 0.85 – 0.95).
- **Fire Safety Compliance:** Certified Class A / Class 0 performance (tested to ASTM E84 and EN 13501 standards).

# Aluminium Entrance Mat

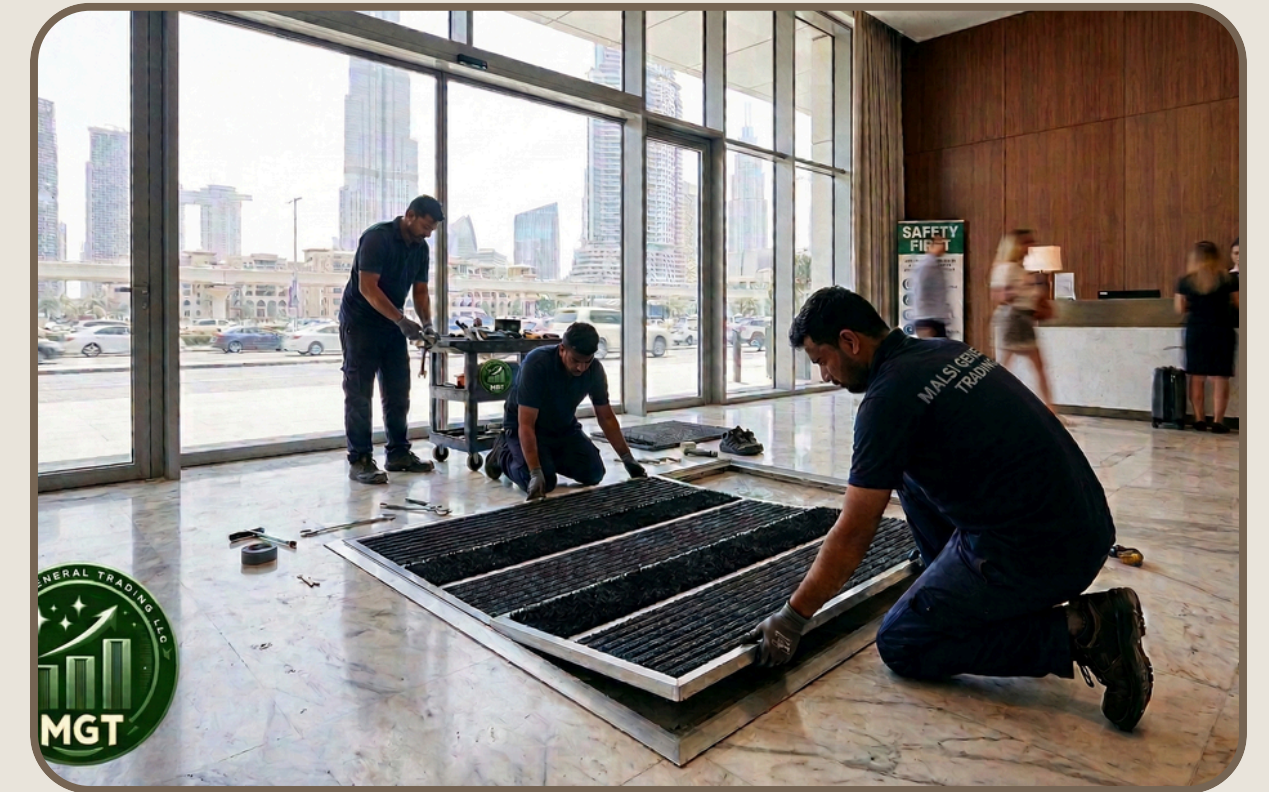

Malsi General Trading L.L.C. provides premium, custom-engineered Aluminium Entrance Matting systems meticulously designed to shield high-end interior spaces from incoming dirt, moisture, and debris. As the primary line of defense at corporate, commercial, and institutional main entrances, these heavy-duty matting systems stabilize walking surfaces, dramatically reduce interior maintenance overheads, and preserve the lifecycle of contiguous floor finishes such as stone, wood, or carpet.

## Key Applications

- **Commercial & Retail Hubs:** Prestige corporate headquarters, shopping mall thresholds, and high-volume public lobbies.
- **Transportation & Infrastructure:** Airport terminals, metro stations, and transit hubs experiencing continuous foot traffic.
- **Hospitality & Institutional Footprints:** Five-star hotels, healthcare facilities, and modern school campuses.

## Technical Specifications & Structural Features

- **Profile Construction:** Manufactured utilizing high-grade extruded aluminum architectural profiles designed to sustain immense rolling and pedestrian loads without structural deformation.
- **Scraper & Infill Options:** Customizable multi-zone infills including heavy-duty UV-resistant polyamide carpets for moisture absorption, ribbed rubber strips for maximum soil scraping, and integrated abrasive brush profiles.

# Specialized Flooring

## High-Durability Supply & Precision Installation

Malsi General Trading L.L.C. provides premium, engineered Flooring Solutions across the UAE designed to withstand heavy traffic, fulfill rigid safety codes, and complement modern interior designs. We support contractors and consultants from initial technical specification to flawless on-site handover.

## Core Product Range

- **Epoxy & Resin Industrial Flooring:** Seamless, chemical-resistant, and heavy-duty floor systems optimized to endure heavy machinery and high impact in warehouses, factories, and industrial sites.
- **Luxury Vinyl Flooring (LVT / LVP):** Elegant, 100% waterproof, and highly scratch-resistant planks or tiles that mimic the aesthetic of natural wood or stone. Perfect for demanding commercial, office, and hospitality sectors.
- **Shock-Absorbing Rubber Flooring:** High-impact, noise-reducing resilient flooring systems engineered specifically for athletic gyms, indoor play areas, and sports facilities to protect sub-floors and absorb structural shock.
- **Modular Carpet Tiles:** High-performance, stain-resistant modular carpet systems engineered for corporate offices. These tiles maximize room acoustics, offer rapid localized replacement, and elevate interior styling.

# Sectors We Serve

Industry Sector	Core Solution Provided	Value Proposition
Education	Safety Padding & Acoustic Panels	Student safety and optimal learning environments.
Healthcare	Hygienic Cladding & Corner Guards	Sanitary compliance and impact resistance.
Sports & Leisure	Heavy-Duty High Impact Padding	Professional athlete protection and durability.
Hospitality	Luxury Trims & Floor Systems	Premium aesthetic finish and architectural detail.
Infrastructure	Expansion Joints & Adhesives	Structural longevity and thermal resilience.
